This ancient Ayurveda formula endorsed by Yogi Bhajan is used to stimulate the immune system by drawing toxins and bacteria out of the teeth, gums and glands. The glands are responsible for collecting toxins that have drained overnight. First thing in the morning, Mix two parts alum and one part salt. Store in a dry, cool place. Toothpaste is optional. Place a small amount in the palm of your hand and run toothbrush through it. Brush gums and tongue and then take your finger or brush and press the back of the tongue to make a gag and bring up two balls of mucus from the monkey glands. This mucus has to come out; otherwise it will go back into body and pollute your system. *Rinse and smile!*

NOTE: Headaches and migraines can be traced to mucus accumulations. (INFORMATION FROM "ANCIENT ART OF SELF HEALING") BY YOGI BHAJAN. For a more detailed description of the many benefits and uses, please visit www.taoskhalsahealth.com. Use only as directed.
